2.1 LIST OF COMMENTS

A total of 114 comment letters were received on the Draft Environmental Impact Report (DEIR) during the public review period. A list of commenters on the DEIR is found in Table 2-1. Comments were provided by the public during public meetings held by the Santa Clara Parks and Recreation Commission and the Santa Clara Historical and Landmarks Commission. These comments were summarized in the approved commission meeting minutes, which are presented as comment letters 6 and 7, respectively.

A total of 34 comment letters were received on the Recirculated DEIR during the public comment period. No public meetings or hearings were conducted during the recirculation review period; therefore, no oral comments were received on the Recirculated DEIR. A list of commenters on the Recirculated DEIR is provided in Table 2-2.

Each letter and comment has a number/number designation assigned for cross-referencing purposes. This list represents all written and oral comments received during the review periods. The comment letters and responses to significant environmental points raised in comments on the DEIR are presented in Chapter 3.0. Comments submitted and responses to significant environmental points raised in comments on the Recirculated DEIR are presented in Chapter 4.0.
